EDUCATION

GEORGE MASON UNIVERSITY - College of Engineering & Computing

May 2026

B.S., Information Technology

- **Concentration:** AI Driven Solutions
- **Achievements:** Dean's List 2024, Dean's List 2025
- **Coursework:** Python Programming, Intro To Engineering, Java Programming, Computer Programming, Intro to Electrical/Computer Engineering, C Programming For Engineers, Linux System Admin, Telecommunications, Computer Hardware Troubleshooting, Microcomputer OS, PC & OS Architecture

CAREER

OUTAMATION

Jul 2025 - Aug 2025

AI/ML Internship

Fairfax, VA

- Enhanced document processing efficiency by deploying ML pipelines to classify and extract critical data from unstructured mortgage documents using Python and AI models, accurately identifying salaries, dates, and account numbers.
- Evaluated modern ML techniques by testing advanced AI models such as DocLLM, LangChain, and LayoutLM for document classification and data extraction, analyzing performance to determine the optimal tools for mortgage industry applications.
- Provided actionable insights to optimize document processing workflows by benchmarking AI tools, thereby enhancing data accuracy and operational efficiency.

DEPARTMENT OF STATE

May 2024 - Aug 2024

DevOps Engineer Internship

Fairfax, VA

- Deployed an information-oriented mobile application for U.S. expatriates in Turkey, leveraging PowerApps and Azure SQL, streamlined access to critical resources for ~200 users and reduced inquiry calls by 20%.
- Managed and maintained Cisco networking systems, Linux servers, and encrypted radio communications across embassy departments, ensuring 100% system uptime and secure operations for 3 critical services.
- Enhanced IT network security by conducting systematic maintenance and debugging software across systems, utilizing PowerShell scripting, resulting in a reduction in reported vulnerabilities by 30%.

CONTINUUM BEHAVIORAL HEALTH

Oct 2024 - Present

Registered Behavioral Technician

Fairfax, VA

- Leveraged specialized behavioral tracking software to meticulously log patient progress and conduct in-depth analysis of therapy outcomes, informing 50+ individualized treatment plans and contributing to a 25% improvement on average in patient goal behaviors attainment over clientele.
- Ensured meticulous data collection and reporting for therapy sessions, maintaining adherence to HIPAA compliant record-keeping standards and supporting clinical audits without discrepancies.

PROJECTS

MISSION TURKIYE GUIDE

2024

SQL Azure, Microsoft PowerApps, Python

- Developed an interactive mobile guide for U.S. expatriate diplomats in Turkey, providing 200 users with immediate access to critical local information, including emergency services, embassies, and local businesses.
- Integrated Microsoft PowerApps with Azure SQL databases to establish a robust backend, enabling real-time cloud storage and dynamic data retrieval for critical information and resources.
- designed UI/UX interface with a focus on accessibility and efficiency. Through iterative design and user feedback incorporation, facilitated seamless search and navigation functionalities, enhancing user experience.

JAVA CHESS APPLICATION

2025

Java, Bash, Git, Linux

- Built a CLI Chess application for Linux OS using Java. Implemented a comprehensive game state management system alongside real-time board rendering and precise piece movement validation
- Developed a multi-level AI; employing algorithmic strategies ranging from a move generator to a sophisticated minimax algorithm, implementing 3 distinct difficulty settings and providing an engaging opponent for users.
- modular and extensible codebase adhering to object-oriented programming principles, which reduced future feature integration time and enhanced code reusability.

SKILLS

- **Languages:** Java, Python, JavaScript, TypeScript, Bash, SQL
- **Technical:** MS Azure, MS Excel, MS Word, MS Teams, JIRA, Virtualization, Windows, MacOS, Linux, RedHat
- **Soft Skills:** collaborative, dedicated, fast-learner, tech-savvy, adaptable, communicative
